RANJIT PATIL

Full Stack Java Developer

+91 8767751737 | ranjitpatilsknscoecomp@gmail.com | github.com/ranjitpatil7 | linkedin.com/in/ranjit-patil-3236b72a4

PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with hands-on experience building Java applications and full-stack web projects using Java, Spring Boot, React, and TypeScript. Familiar with REST API development, database management, authentication, and concurrent booking workflows using MySQL and Redis. Seeking an entry-level Java Developer role to apply my programming skills and contribute to developing reliable, maintainable applications.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering (Honors - AI & ML) **2023–2027 | CGPA: 7.52**
SKN Sinhgad College of Engineering, Pandharpur

Higher Secondary Certificate (HSC – 12th) **Percentage: 75.67%**
Ligade Patil Junior College of Science, Karad

Secondary School Certificate (SSC – 10th) **Percentage: 81.40%**
Shivanjali English Medium School, Navarasta

TECHNICAL SKILLS

Languages: Java 17, SQL, JavaScript, TypeScript, Python

Java & Backend: Spring Boot 3, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT, Maven

Databases & Messaging: MySQL, PostgreSQL, Redis, Apache Kafka, MongoDB, Neo4j

Frontend: React.js, Next.js, React Query, Tailwind CSS, HTML5, CSS3

Testing & Tools: JUnit 5, Mockito, MockMvc, Swagger/OpenAPI, Git, Docker, Docker Compose, Linux, Flyway

Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Multithreading, Concurrency Control

INTERNSHIP EXPERIENCE

Full Stack Development Intern | Cognifyz IT Solutions Pvt. Ltd. | Remote **Oct 2026 – Present**

- Build and integrate backend REST APIs with responsive React and TypeScript frontend components.
- Implement server-side input validation, authentication flows, and role-based access checks across application modules.
- Design relational database schemas, write and optimize SQL queries, and debug API-to-database workflows.

PROJECTS

TicketReserve | Event Ticketing & Seat Reservation Platform [GitHub] **2026**
[Java 17, Spring Boot 3, Spring Security, JWT, JPA/Hibernate, MySQL, Redis, Flyway, React, TypeScript, Docker]

- Built a full-stack ticket reservation application with seat selection, booking management, and checkout workflows using Spring Boot and React.
- Implemented concurrency controls using Redis atomic locks, JPA optimistic locking, and MySQL constraints to prevent duplicate seat reservations.
- Added booking status transitions, idempotency checks for repeated requests, and scheduled release of expired seat holds.
- Secured APIs with JWT authentication, role-based access control, and booking ownership checks.

Pulse-Triage | Healthcare Monitoring & Telemetry Platform [GitHub] **2026**
[Java, Spring Boot, Spring Security, JPA/Hibernate, Apache Kafka, Python, FastAPI, gRPC, Next.js, TypeScript]

- Developed a healthcare monitoring application designed to process simulated patient vital readings and display them on a dashboard.
- Used Spring Boot and Kafka to handle telemetry events and support communication between application components.
- Integrated a Python service through gRPC for vital-sign analysis and potential anomaly detection.
- Used Spring Security and database persistence to support controlled access to application data.

EpiGuard AI | Community Health Monitoring & Early-Warning Platform [GitHub] **2026**
[Python, FastAPI, SQLAlchemy, PostgreSQL, PostGIS, Redis, XGBoost, React, TypeScript]

- Developed a public-health decision-support application to help health officials assess water-quality data and identify areas at risk of water-borne diseases.
- Built REST APIs using FastAPI and SQLAlchemy to manage monitoring data and support risk analysis.
- Used PostgreSQL and PostGIS for regional data management and geographical risk visualization.
- Integrated data validation, anomaly detection, and machine-learning workflows to support risk assessment in live, demo, and simulation modes.

CERTIFICATIONS, PUBLICATIONS & ACHIEVEMENTS

Patent & Publication: Published research paper and registered patent for *"Smart Community Health Monitoring and Early Warning Platform"* (EpiGuard AI, 2026).

Neo4j Certified Professional: Certified in Graph Databases and Cypher by GraphAcademy (Oct 2026).

Oracle Agentic AI Foundations Associate: Certified by Oracle University (Aug 2026).

NPTEL Cloud Computing (Elite Certificate): Certified by IIT Kharagpur (2026).

TATA Group Virtual Job Simulations (Forage): Completed practical job simulations in **GenAI Powered Data Analytics** (Oct 2026) and **Cybersecurity IAM Strategy** (Oct 2026).
